**Process for Notification of Additions,  
Deletions and Amendments to Business Practices for  
Hydro-Québec TransÉnergie's Transmission Services**

Whenever the Transmission Service Provider posts a new rule, or amends or deletes a rule, standard or business practice not contained in its OATT, it will post a notice in the "NEWS" section of its OASIS site. The notice will indicate that a change has been made to the documentation and give the reference on the OASIS site.
