Revised OATT

In ruling D-2012-069, the Régie de l'énergie approved the French and English versions of *Hydro-Quebec Open Access Transmission Tariff* (OATT) effective June 14, 2012 with regard to the wording (with the exception of amendments respecting Generator and Energy Imbalance Services which will take effect December 14, 2012), and January 1, 2012, with respect to rates for transmission services, ancillary services, loss factor and rate rider.

Many amendments were made to the wording of the OATT among which:

- Calculation of the Available Transfer Capabilities
- Coordination of the Available Transfer Capabilities
- Conditional Firm Transmission Service and Redispatch Option
- Generator Imbalance Service and Energy Imbalance Service
- Posting of Designation and Termination of Network and Distributor's Resources
- Rollover Right for Transmission Service Agreement
- Process for Information and Discussion on Transmission Service Planning

The OATT, along with the ruling, may be viewed on the Régie de l'énergie Web site :
