
**Five-Year Rate Forecast for
Bulk Transmission and Subtransmission Service
under Southern Companies'
Open Access Transmission Tariff**

02/05/2013

In order to assist customers taking transmission service under Southern Companies' Open Access Transmission Tariff ("OATT") in their planning efforts, Southern Companies are providing a five-year forecast of their OATT monthly rates for bulk and subtransmission service. The forecasted rates set forth below are based on projected costs, loads, and other data, as budgeted for the next five years, and are being provided for informational purposes only. As such, the projected rates shown below are subject to change and should in no way be considered final.

	Forecasted OATT Rates (\$/kW-Month)		
	Non-Firm & Network	Firm Point-to-Point	Subtransmission
2014	\$2.45127	\$2.39496	\$2.10236
2015	\$2.63069	\$2.55119	\$2.14774
2016	\$2.78857	\$2.70514	\$2.18460
2017	\$2.89749	\$2.81171	\$2.19130
2018	\$3.00748	\$2.91918	\$2.20282
